I find that Akshay is always efficient and supportive, which is especially important to an elderly client. I don't feel comfortable using apps, etc, and appreciate that Akshay is happy for me to phone him to sort out whatever it is that needs to be done. I want this commendation to be added to his personnel file.

Akshay started in the insurance industry in 2019 and joined Rothbury in 2023. He is a quick learner and prides himself on being incredibly efficient. Akshay is looking forward to working with his clients to understand and fulfil their specific needs. Always thirsty for knowledge, Akshay is keen to gain an understanding of a wider range of insurance policies countrywide.

In his own time, Akshay enjoys spending time with his family and going to various restaurants. He is fond of the Auckland area because of its close proximity to so many amazing beaches. Akshay holds a Bachelor of Commerce focusing on accounting and is a national level Cricket player!
