Dylan was pleasant to deal with over the phone. He was quick to come back to me with a quote once he had established my insurance cover requirements.

Dylan began his insurance career in 2019 and joined Rothbury in 2025. With a client-first mindset, he is dedicated to delivering the best outcomes for his clients. Dylan primarily works with SME businesses and start-ups across a range of industries, including car dealerships, woodworking, charities, construction, and the medical sector. Drawing on several years of experience as an underwriter, he has completed extensive training, including his Level 5 Certificate in General Insurance.

Outside of work, Dylan enjoys exploring new places, playing guitar, and snowboarding during the winter months. He is also passionate about giving back to the community through charity work, such as tree planting initiatives!
