What Tegan's clients have to say

Southland Sept 2025

Tegan was extremely helpful in sorting my slightly complicated insurance needs. She was efficient, communication was brilliant, and she went above and beyond to get the policies in place in a very timely manner. I could not have asked for better assistance in getting things in place. Nothing was too much trouble, and she explained things really well, making it easy to understand. This type of insurance is not something I've used before, so I required a good explanation of it all. Tegan communicated this in a way I could understand. Thank you.

She was very patient with me as I'm not confident with technology. She was great.
