Claims Examples

Many Beauty Clinics have IPL (Intense Pulse Light) machines which are used for hair removal and skin enhancement treatments. These machines can be very costly to replace and are easily damaged when dropped, particularly the heads of the machines which are expensive. Our standard excess of \$400 would apply to this type of loss.

Some Beauty Clinics offer cosmetic injectable treatments including dermal and lip fillers, Botox and anti-wrinkle injections. Some of these products need refrigerating and can be valuable when stored in bulk. If a refrigeration unit malfunctions, or is accidentally disconnected from the power source, these could spoil and be unfit for use. Our policy has automatic cover for Refrigerated Goods up to the value of \$10,000.

A client suffered damage to their salon in the Auckland floods including loss of equipment and damage to their fitout. There was also the associated loss of profit as they could not operate from their premises until repairs and replacement of insured property could be carried out. Claims under their Material Damage and Business Interruption policies were quickly settled which enabled the client to reinstate their business, recover their financial loss and resume trading.
